Quarterly investor update

8 May 2024

GCP Infra is pleased to announce the publication of its investor report, which is available at www.gcpinfra.com.

At 31 March 2024:

- The net asset value was, as previously announced, 107.62 pence per ordinary share;
- The Company was exposed to a diversified and partially inflation protected portfolio of 51 investments with an unaudited valuation of £1.0 billion; and
- The portfolio had a weight-adjusted average annualised yield of 7.8%, principal outstanding of £1.0 billion and an average life of ten years.

On 26 April 2024, the Company disposed of its interest in loan notes secured against Blackcraig Wind Farm. The disposal occurred at a 6.4% premium to valuation at 31 March 2024, and generated net cash proceeds of c. £31 million. The net cash proceeds will be used to repay the Company's revolving credit facility. Following such repayment, the Company's net debt position is expected to be c.£45 million. Further, the disposal has reduced the Company's exposure to merchant electricity prices and equity-like interests.

Capital allocation

The Board of Directors of the Company adopted a capital allocation policy as part of the Company's 2023 Annual Report and Accounts, reconfirming its intentions to prioritise a material reduction in leverage, as well as reducing equity-like exposures and exposures in certain sectors, and facilitating the return of capital to shareholders. The Board set a conditional target of releasing £150 million (c. 15% of the portfolio) from disposals or refinancings, to materially reduce leverage and return at least £50 million to shareholders before the end of the calendar year 2024.

The disposal detailed above represents a positive first step in facilitating the Company's execution on its capital allocation policy, materially reducing leverage while decreasing equity-like exposure across the portfolio. The Board and the Investment Adviser continue to focus on additional opportunities for refinancings or disposals within the portfolio, in order to achieve the targets set out in the capital allocation policy.
