Commenting on the fundraising, Robert Peto, Chairman, said:

"We are delighted with the support demonstrated by both existing shareholders and new investors for this equity raise for the UK's only listed REIT focussed on student accommodation in the UK.

The strength of the demand for shares from both existing and new shareholders is a pleasing endorsement of our success in delivering the Company's investment objective with a focus on modern, purpose-built, private student residential assets in and around London, will allow the Company to acquire Scape Greenwich without debt and increase both the size and quality of the portfolio and provide additional liquidity for shareholders.

The Company continues to perform in line with its strategy with income and capital returns delivered to date currently in excess of its target. With the increased application rate of domestic, and in particular international students, the Company is well-positioned to meet its targets through exposure to the London market over the forthcoming years.

About GCP Student Living plc

The Company is the first student accommodation REIT in the UK. The Company invests in modern, purpose-built, private student residential accommodation and teaching facilities, initially branded and operated by Scape Student Living. Facilities will be located primarily in and around London where the Investment Manager believes the Company is likely to benefit from supply and demand imbalances for student residential accommodation. In total, London has over 400,000 students and the largest number of overseas students of any city in the world, at over 100,000, with international student numbers up by 9% in 2014/15 and expected to increase at a similar rate in the years to come. However, with only c.70,000 beds in purpose-built student accommodation in London, there are

insufficient beds for domestic first year students let alone international students and postgraduates.

The Company's assets are primarily occupied by international students and postgraduates and offer new high specification facilities and hotel-level concierge type services.

The Company will only acquire properties once they are completed and generating income.
